

Moisture, Humidity & Oxygen Instrumentation May 4th, 2009

**Introducing the New EdgeTech Model HT150
HIGH TEMPERATURE (150°C)
HUMIDITY TRANSMITTER**

The **EdgeTech Model HT150** is a precision transmitter that provides quick and accurate humidity, temperature and dew point measurement in high temperature applications.

- ◆ Temperature Range: -40°C to 150° C
- ◆ Dew Point Range: -40°C to 95°C
- ◆ RH Range: 0 to 95% (non-condensing)
- ◆ Remote Type Transmitter with 20 foot cable
- ◆ LCD display, 4-20mA outputs, two alarm relays
- ◆ Resistant to most chemicals

Recommended for High Temperature Applications in many industries such as: Fuel Cell, Power Stations, Drying Systems, Semi-Conductor, Automobile, Painting / Coating and Clean Rooms.

FOR ADDITIONAL INFORMATION PLEASE CONTACT EDGETECH, A MANUFACTURER OF DEW POINT / HUMIDITY PRODUCTS SINCE 1967, AT www.edgetech.com OR CALL US AT 800-276-3729.
