

SEAROBOTICS CORPORATION

Unmanned Survey Vehicle USV-2600

Features

Autonomous Surveys

Welded Aluminum Hulls

Ni-MH and LiPoly Battery Chemistry

High bandwidth Wireless Communication

DGPS with optional RTK, and Omnistar

Data storage and presentation

Survey planning tools

Modular Sensor Interface

Edgetech 4200-FS Integrated Side Scan Sonar and Sub Bottom Profiler

4-24 kHz Sub Bottom Profiler and Dual Frequency 120/410 kHz SSS

ADCP

Low Cost Heave Measurement

LOA 3.2 m
Beam 1.3 m
Draft .25 m

Weight 100 kg
Maximum Speed 3 m/s
