

## SUPPORTING PRODUCTS

FOR USE WITH ACOUSTIC TRANSPONDING RELEASES

**EdgeTech**  
**FORTY-PLUS**  
**YEARS OF**  
**IN-DEPTH**  
**TECHNOLOGY.**

EdgeTech's product group of acoustic positioning (USBL) and acoustic releases, formerly branded as ORE Offshore, was founded in Cape Cod, Massachusetts, over 40 years ago and is a leading manufacturer of highly accurate acoustic underwater positioning, navigation, and control products. With its worldwide network, it serves and services customers including survey firms and the oil & gas industry, research institutions, the US Navy and navies on every continent. The company maintains engineering and manufacturing facilities in Wareham, Massachusetts, and Boca Raton, Florida.

**8011M Acoustic Transceiver Surface Unit**

- Very user friendly
- Extremely versatile
- Sends most manufacturers commands
- Full command and range capability
- Rugged and reliable
- Runs on 115 or 230 VAC
- Self charging internal battery
- DSP for multiple channel operations
- Includes dunking transducer with 67 meters of cable

**PACS - Portable Acoustic Command System**

- Lightweight and portable
- Easy to operate
- Affordable
- Works with all standard EdgeTech Acoustic Releases
- Full command set
- Acoustic range capability
- Rugged and splash proof
- Flexible battery/power options
- Capable of MF or LF frequencies
- RS-232 Port
- Back-lit, Extended Temp Display

# ACOUSTIC TRANSPONDING RELEASES

## MORE SOLUTIONS. MORE DEPTH.

EdgeTech, formerly ORE Offshore, is a leading manufacturer of highly accurate acoustic underwater positioning, navigation and control products. Our Acoustic Transponding Releases are heralded in the industry because we can provide entire systems quickly to meet any specifications you may have – for every water depth, mooring load or application. In addition to providing top-performing components, we can provide all of the ancillary materials needed for deployment. EdgeTech becomes your turnkey provider for all of your acoustic release needs.

## APPLICATIONS

- Deep water moorings
- In-line moorings
- Shallow water frames
- Trawl resistant bottom moorings (TRBM)
- Underwater command and control
- Pop-up buoys
- Long life undersea deployments
