

DEEP INSIGHT INTO SHALLOW WATER ADVANCES

Join us for a special two-day seminar, where we will demonstrate the very latest in underwater technologies. Led by EdgeTech and Hypack, and hosted by ANP, the two days of instruction include:

- ▶ *Intro to Underwater Acoustics – learn the basics of sonar principles*
- ▶ *Side Scan, Sub-Bottom and Bathymetric Survey – how to process data and generate reports*

May 10-11, 2017, 08:30 to 17:00
ANP- Institut de Formation Portuaire
Rue de Toulon, Belvédère, 20300 Casablanca

Lunch and Coffee Breaks Provided | **FREE** Admission
NOTE: Laptop required for hands-on training
